Budgeting Solutions

Would You Like to Simplify the Budgeting Process and Make Your Financial Institution More Efficient?

Introducing Your Total Budgeting Solution
No matter what budgeting level your FI seeks to manage, ProfitStars offers comprehensive solutions that:

- Eliminate cumbersome, error-prone spreadsheets.
- Optimize the efficiency and effectiveness of your budgeting and planning process.
- Avoid annual struggles with complex spreadsheet formulas, continuity challenges, unforeseen errors, and more.

ProfitStars’ solutions can calm even the most severe spreadsheet mayhem in your office, on your computer screen, and across your entire institution. Expect simplified budgeting convenience for:

- Your organization as a whole.
- Adding budgeting by branch.
- Participatory budgeting that includes front-line budgeters.
- Pulling all your numbers and key performance indicators together into one convenient dashboard.

Simplify Your Budget Process Across Any Budgeting Level
Our lineup of integrated solutions and modules makes it easier than ever to go from the organizational level of budgeting down to your front line and beyond.

Our Budgeting Suite includes:

- **PROFITstar® Classic** - The industry’s leading financial management tool provides a strategic approach to budgeting. It includes comprehensive balance sheet management, liquidity planning, interest rate risk assessment, and board reporting by seamlessly integrating your financial institution’s initiatives with your asset liability management (ALM) program.

- **PROFITstar® Budget™** - Even if you’re outsourcing ALM to ProfitStars or another vendor, PROFITstar Budget is your solution for budgeting, forecasting, and financial reporting – simplifying the budgeting process for your institution.

- **PROFITability® Budget™** - Provides a view of the true profitability of a branch, department, or region while delivering the budgeting, forecasting, and financial reporting your institution needs.
- **Branch Break Out** - Capturing, modeling, and reporting at the organizational unit level offers financial managers a more precise view of their financial position and the ability to more accurately project performance throughout the organization.

- **Budget Manager** - This new browser-based, distributed budgeting tool enables you to simplify the budgeting process by receiving continuous accountability and buy-in from front-line managers throughout the organization.
About ProfitStars
